

BatteryDEV

Code of Conduct - February 2021

BatteryDEV, an initiative of Battery Associates, was established on the core principles and values outlined below. We believe that the respect of these guiding principles will ensure a safe and positive experience for all our users, participants and contributors. As such, we require all those involved with BatteryDEV to adhere to the following values:

Collaboration and Support

Nurturing a highly collaborative environment is crucial for BatteryDEV. We hold collaboration and openness among our core principles and expect everyone to act with respect towards others to ensure a safe, supportive, encouraging, and dynamic work environment.

Respect, Tolerance & Inclusion

BatteryDEV will not tolerate any form of discriminatory behaviour or harassment. All participants and contributors shall respect the freedom, privacy, and opinions of others. BatteryDEV gains strength from the diversity of those involved with its projects and is committed to creating a space where all people feel free to safely participate.

Integrity

Individuals working with or contributing to BatteryDEV will not advise on, or participate in, any activity considered illegal, offensive or defamatory. If you become aware of any such activity, you are expected to bring the matter to the attention of Simon Engelke.

Privacy and Security

BatteryDEV honours privacy and is clear about data protection. When participating or contributing to BatteryDEV, you agree not to use or share others' personal data without written permission. This includes abiding by current privacy laws and providing clear privacy notices when collecting or processing personal data, as well as building secure products and services.

Data Protection & Intellectual Property

Individuals participating or contributing to BatteryDEV shall not misuse information shared via BatteryDEV and shall respect all incorporeal property such as trademarks and copyright. Contact information held collectively by BatteryDEV may not be used for personal gains or disclosed to third parties.

Please refer to specific open-source licenses for agreements linked to individual developer competitions run by BatteryDEV.

Avoid Conflicts of Interest

In a situation of competing loyalties, or anytime personal relationships or financial interests overlap with personal responsibilities linked to BatteryDEV, you may be faced with a conflict of interest. Participants should avoid conflicts of interest and circumstances that present the appearance of a conflict. Conflicts of interest shall be reported to Simon Engelke.
